has outdone the Vanderbilts and the Stewarts in making a collection of pictures. He has bought a collection of pictures ready made and a good old collection, too-that at Leigh Court, Somerset. This is one of the many notable private galleries of old masters in England, and Mr. Mackey is said to have bought it outright for \$550,000.

Hardly any one has any idea of the enormous amount of silver coin which has accumulated in the treas, department at Washington. It weighs upwards of five thousand tons of two thousand pound each, and would require five hundred cars to carry it. The greenback idea of getting rid of this silver would be to apportion it among the people who are worth less than \$500 each, and say nothing about value received.

The arrangements for the coming press convention at Lake Geneva next week are in good shape. The ladies of the party will publish a paper, some of the best talent in the state having a part in the novel enterprise. Among the ladies who will contribute to its columns we may name Mrs. George C. Ginty, Mrs. S. S. Fifield, Mrs. E. D. Coe, Mrs. Sarah D. Hobart, Mrs. Hattie Tyng Griswold and Mrs. Marion Dudley. The gentlemen, m self defense, will also have a paper.

The condition of things in the democratic party in Ohio can be understood from the following statements from Mr. West, a democrat, and who two years ago, managed the bureau for Mr. Bookwalter when he was running for governor: "The democrats in Ohio propose to spend \$30,-000 in their efforts to elect Judge Hoadly governor. There was a bargain between Hoadly and Bookwalter relaive to capturing the state convention, and that little job cosi \$20,000. It required an outlay of \$7000 to make Hamilton county all right for Hoadly. Bookwalter is to be rewarded with a seat in the United States sonate if everything turns out as expected. Hoadly will contribute \$10,000 for camprign expenses, the balance of the ticket \$10,000, while Bookwalter, Pendleton and other aspirants will be assessed for

The early death of Miss Marie Von Els. nor, known to the musical world as Mlle. Marie Litta, will cause a profound sorrow throughout the country. She had achieved wide fame as a singer, and was exceedingly popular wherever she had heard. She was born in Bloomington, but received her musical education in Europe, and appeared in both concert and opera in all the chief cities on the continent. She was a close student, ambitious to succeed, thoroughly in earnest and in love with her work, and her breaking down was caused by over-exertion. After she was taken home from Negaunee, Michigan, where she gave her last concert, she was attacked by pneumonia, but the immediate cause of her death was cerebro-spinal meningitis. She accomplished much during her short life, and that she should be claimed by death at the age of only 27, will be deeply mourned by the country at large.

Mr. Frank Leland has returned to this city from Hamilton, Ontario, after an absense of five years and a halt, where he held the position of United States consul. Before his departure, the citizens of Hamilton held a public meeting, expressed their regrets at his leaving, presented him with a beautifully illuminated address, and a table-set, of silver, consisting of four pieces, and which cost \$250. The inscription on the epergue reads: "Presented to the Hon. Frank Leland, of-Janosville, Wis., on his retirement from the position of United States consulat Hamilton, Ont., by the mayor and com_ mittee on behalf of the citizens of Hamilton, June 29th, 1883." In the address of the mayor, he said: "He had manfully presented our friendship and esteem, and at the same time had faithfully representod his own country, and so long as the United States had such representatives there was no danger of the peace between the nations being disturbed. The feeling now between them was one of the warmest friendship and the highest respect and the only rivalry was to see who could do the most good and promote more so ciability."

The New York World, the organ of the democratic party of that city, takes time to say: "Our population increased 12,000,-000 between 1870 and 1880, and only 7,-000,000 between 1860 and 1870. The total land in farms in the whole United States in 1870 comprised 407,700,000 acres, against 407,200,000 acres in 1860-an increase in the decade of only 500,000 acres. In 1880 the total land in farms comprised 536,000,000 acres, an increase in the decade of nearly 130,000,000 acres, or over 30 per cent. We have a great and growing country. Our revenues swell every year." But the World forgot to mention that all this progress had been made under the administration of the republican party. Of course, no political party can make the crops grow, but the republican party has made it possible for this country to make this wonderful advancement. It has given the nation credit—a thing the democratic party never could do; it has inspired our manufactories: it has given plenty of work to the mechanics; it has made our manufacturing industries and agriculture march hand in hand; and from these things comes the remarkable prosperity of the country. Without the wisdom of the party in power, without its

Mr. J. W. Mackey, the bonanza king, guiding hand, and its progressve spirit, much of this could never have been gained.

A MIDNIGHT ATTACK.

Storming of a Desperado's Home in Kentucky --- The Storming Party Put to Flight.

A Lunatic's Doings at a Des Moines Hotel---Failing in Suicide He Tries to Wreck the House.

GREENSBURG, Ky., July 9.-Marshal Hens-

ley, in company with George A. Edwards, left town to arrest a man named James Owen on a felony warrant, and knowing that Owen sustained a bad character, he summoned Ben Bagby, Leroy Ruttledge and Robert Jones to assist in making the arrest. The marshal's party were armed with shot-guns and pistols, and anticipated some trouble. Owen lives mer Liletown, in this county, and Hensley reached his house about midnight. It seems the party then divided and approached the house from different directions. On entering the house they were fired upon, and at once demanded the surrender of A female voice from the house replied that Owen was not at home, and it seems that immediately an indiscriminate firing commenced, and forty or fifty shots were exchanged. Edwards claims that he alone fired thirty shots at four men supposed to be Owen and his mon. All the firing occurred outside the house, and it is generally supposed that the Owen faction bad got wind of the arresting party and were lying in wait. Anyway, Marshal Hensley was shot to death and Ben Bagby, mulatto, wounded. These two were not found until morning, about daylight, the rest of the marshal's posse having returned without having found out the result of the fight. Up to this time it is not known whether any of Owen's friends were shot. Hensley was hit five or six times in the left shoulder and back, one large ball passing through his body. He lived, according to Bagby's statement, about one hour, and during that time called for help, and said he was badly wounded. Bagby was lying within about twenty yards of him with five bulletholes in his body and unable to move. He also is shot through the body; and can not live, as one of the bullets passed through his abdomen. Henseley leaves a wife and four abdonen. Henseloy leaves a whe had loss small children. He had been marshal of Greensburg about one year, and had made an efficient officer. Bagby is a single man and quite young. He is too feeble to make any statement in regard to the tragedy. His death is looked for at any moment. None of the Owens party has been seen, and it is not definitely known who his friends were. The entire matter is shrouded in some mystery. The details are not as clear as they might be. Some believe the arresting party became excited and fired on each other. A MANIAC ON HIS MUSCLE.

DES MOINES, Iowa, July 9.-A man enter-DES MOINES, 10WA, July 9.—A man entered the office of the Morgan house and registered his name as Henry Seager, from Swains, N. Y., having just alighted from the Rock Island train going west. He paid for his room and went there. A little after 4 cyclock a heavelet heavel entered with of

o'clock a boarder heard several yells of murder from the stranger's room. The landlord was called, who unlocked Scager's door with a pass-key, but found it barricaded with the bed. As he tried to push the door open Seager fired through it, the ball lodging in the plaster across the hall. Seager then alternately broke up his furniture and fired his revolver at the door until thirteen shots had been fired. The crazy man then came out of his room and attempted to seize Joseph Holmes, another boarder, but the latter eluded him and got into another room, where Mr. Brown had been sleeping. Here a struggle took place, and the furniture was badly Holmes got loose and jumped broken up. from the window outo the roof of the addition outside. Seager fled east along the hall, turning south into another bedroom, breaking off the door lock. Here he thre and basin into the street, breaking the window glass, and smashed some other articles. Moving back he smashed a door at his right and then going to his own room he threw a considerable sum of money into the street. He then made for the small window at the end of the hall, through which he serambled out onto the roof of the wing of the building, which was surrounded by a thousand people. Mr. Holmes, who was now aided by Officers McCaulley, Gillespie, Richardson, Duvail, and Thompson, followed Seager through the window. The police agree that Seager now pointed his revolver at his own head and fired, but he did not fall. He again rushed at Holmes, whom he had felled with a pop bottle. Another shot was fired but the police are not positive whether by Seager or Holmes, which took effect in Seager's thigh, passing upward, and as he partly fell the po-lice secured him. Ho was brought down to the street still struggling, and taken immediately to the city hospital, where he is as well cared for as his violence will allow. Holmes was badly hurt by the blow from the bottle. During the half hour or forty minutes the maniac was doing his fantastic devilery he was raving in the most volent manner. The physicians who were called found that the built find him. who were called found that the bullet fired by Seager at his head had broken in the skull. The wound in the thigh was probed, and it is thought the ball lies in the groin. The physicians say he will hardly recover. He became rational about 8 o'clock and said he had intended to throw himself from the roof. His only baggage was a pair of stout shoes. His

clothes and hands indicate that he is a me-chanic or laborer. Inside his hat-band is writen the name of Mary Frew. The Yellow Fever.

NEW ORLEANS, La., July 9.—There has not yet occurred a single case of yellow fever in this city or on the Mississippi river, though there are cases on board ship at the quarantine stations at Galveston, Pensacola, and Ship island. There are two vessels at Ship island in charge of the surgeon of the marine hospital service, who established himself in the quarters of the late National Board of Health, and one vessel at Galveston and two at Pensacola are under orders to proceed thither.

PENSACOLA, Fla., July 9.—The two infected vessels, Norwegian barks Guldbringa and Ungdomsventer, are to be transferred to the Ship island quarantine. Telegraphic authority has been received to that effect from Surcon-General Hamilton, of the marine hospial service.

HAVANA, July 9.—Forty-three deaths from yellow fever have occurred the last week.

British Bishops Alarmed. New York, July 9 .-- A special cable from London says: "The bishops are so alarmed at the storm of criticism evoked by their opposition to the deceased wife's sister bill that they are preparing to publish a reply in justification, explaining their motives. family is much vexed at the failure of the measure, which puts the intended marriage Beatrice to her widowed of the Princess ather-in-law as far off as ever, that project ing said to explain the warm advocacy of bill by the prince of Wales and his

New Nail Mill.

MILWAUKEE, July 9.-The Minerva blast mace at Kinnickinnic has been taken by a money who propose to erect a nail-mill in acetion with it, and see the business of LITTA'S RELEASE.

The Bloomington Cantatrice Re-Teased from Her Sufferings By The Hand of Death.

BLOOMINGTON, Ill., July 9.—Mile. Litta is Bloomington's own prima donne, and one of the few really great vocalists the age has produced, has forever ceased her earthly She breathed her last at the home of her mother in this city, surrounded by relatives and friends. The cause of her death was a complication of stomach, bowel and kidney complaints, resulting in cerebro-spinal meningitis. The prominent feature was constant delirium, which almost destroyed mental action and utterly prostrated the nerves. For years she had suffered, at times exceedingly, with stomach teoubles, together with affections of the kidneys of a serious character and other complications, in cluding rheumatic affections more or less severe. Litta sang for the last time at Escana-ba, Mich., May 9 She sang in the "Carnival de Venice." Between each song she vomited severely, and was so very weak that she had to be supported when she sang her last song. From there she wont to Negaunee, Mich., where she was obliged to take her bed, and ever since she has gradually failed, being de-lerious most of the time. She was brought home June 6, and since then her decline has meen marked.

Marie von Elsner, whose professional cognomen was Mile. Litta, was born June 1, 1850, in this city. Her father was a poor man of noble German birth and fine linguistic and musical accomplishments. His voca-tion was that of a music-teacher. He is dead. Her mother's maiden name was Demmett, a nember of a pioneer family here. musical education began out of a little circumstance that occurred when she was but 4 years old. In 1800, while visiting friends in Old Town, this county, Mr. and Mrs. Von Elsner attended a methodist church with the child. The old hynn, "Come, thou fount of every blessing, tune my heart to sing Thy praise." Little 4-year-old Marie caught the nelody and sang with the worshipers. Again in her own home the child retired with a baby-sister to a closet and sang the new lynn. Her father heard her and was astonshed. He began to train her voice carefully and she proved a willing pupil. In 1869 she ang in a German concert-hall at Cleveland, under her father's management. Prof. Undoner heard her there, and offered to educate her free of charge. In four years the little girl had developed into a finely-educated young lady of 18, with extraordinary musical accomplishments. Prof. Undener now desired to see Litta complete her studies in Paris. He interested a wealthy friend, Mr. Hough, in her. This gentleman advanced the funds needed-about \$6,000-to defray the expenses of two years' education in Paris. After many discouragements she finally triumphed, and won the highest praise of the most critical Parisian audiences. Triumphs at Vienna and elsewhere followed; and at last, after four years absonce, she returned. She saug for the first time in America before a multitude of her friends in this city, Oct. 21, 1878, and shortly afterward she made a successful debut in Chicago in "Lucia di Lammermoor." She sang with Strakesch two years, and the last two seasons she has starred in the Litta Concert company, under Slayton's management, and she was just closing a successful season when stricken down. She sang in all the largest cities in the United States, and with brilliant success.

MRS. NICKERSON NO. 2.

The Injured Lady Demurs to Some of the Statements in the Bill of the First Mrs. Nickerson.

WASHINGTON, July 9 .- In the equity court the case of Emma C. D. Nickerson against Maj. Azor H. Nickerson, Lena Diller Carter Nickerson, and William B. Matthews came on for a hearing before Justice James. The suit was brought for the appointment of a receiver to take respondent's hovse on Dupont circle, and an injunction to enjoin the sale or further disposition of property pending the hearing of the bill. A temporary restraining order has been issued, and the mo tion was whether this should be dissolved or made perpetual. In answer to the original bill, Mrs. Lena Diller Carter Nickerson put in a voluminous answer, accompanied by supporting affidavits. She absolutely denies the charge of adultery, and claims to have suffered more by Nickerson's deceit than the original Mrs. Nickerson. The Dupout circle house, deeded to her by Nickerson, she consideres legally her own, for she avers that when the property was given her the first Mrs. Nickerson was not the lawful wife of the major. The case was adjourned.

Tax on "Bitters." Washington, July 9.—The various alco-bolic decoctions passing under the name of bitters, which have heretofore paid only a stamp tax as proprietary modicines, are not to be relieved entirely of tax, as has been supposed. Many of these decoctions, although nominally classed as medicines, are known to be consumed largely as beverages, and are kept on sale in bar-rooms. It is understood that collectors of internal revenue will be instructed to make investigation as to the manner of sale of all such articles in their re spective localities, and where they are found to be used as beverages to regard them as a compound liquor, and collect the tax accord ingly. These compounds are now dealt in without question in localities where prohibition is in force.

The President. WASHINGTON, July 9.—It is now settled that the president will start on his contemplated trip to the Yellowstone valley about the 1st of August next if nothing should interfere with the present plans. The arrangements for the trip are in the hands of Lieut. Gen. Sheridan. The party will number about ten persons and be gone five or six weeks. The president will join Gen. Sheridan and other members of the party at Chicago. It is proposed to go direct to the Yellowstone with as few stops as possible. The president has abandoned allidea of visiting He will probably remain in Washington until he starts for the west, with the possible exception of making occasional short sea trips on the steamer Dispatch.

Army Destroyed by Fever.

PARIS, July 9 .- The French column, after the successful campaign at Upper Senegal, was attacked with typhus-fever. The situation becoming grave, Col. Desbordes, the French commander, instead of marching to St. Louis, the capital, resolved to reach the coast and embark on the French transport Garoune. This effort proved fatal to the column, as the commander of the Garonne, fearing his crew might be attacked by the contagion, refused to receive the afficted eoldiers on board.

CINCINNATI, July 9.—The body of the late Archbishop Purcell was received at the Cathedral, being escorted from a special rain to the church by a large body of church dignituries, police and several companies of religious societies, uniformed and armed with swords. The streets along the line of march were packed with people, who uncoerved their heads us the hearse passed. Thousands have viewed the remains, lying in state.

GREEK IN COLLEGES.

Controversy on the Subject Commenced by the Published Views of Charles Francis Adams.

Bosron, July 9 .- The Globe publishes interviews with President Elliott, of Harvard; Robinson, of Brown, and Bartlett, of Dartmouth, on the views of the college curriculum, recently advanced by Charles Francis Adams in his Phi Beta Kappa oration at Harvard. President Elliott favors the option between Greek and the modern languages in the entrance examination, and says he advanced his proposition ten years ago. He thinks it would advance true scholarship and increase the influence of the universities.

President Robinson thinks Mr. Adams overstated the case, but goes half way and would have the amount of Greek to be read gauged by the capacity and taste of the student. Greek and Latin are optional at Brown after the second year.

President Bartlett says he has been pondering over the same views half a century trying to convince himself that they are sound and has decided for the highest, soundest education and training for general life or specific calling, there is nothing like classic tongues, and that Mr. Adams' criticisms apply to the undue excess and barren methods of classical study only.

ANOTHER DUEL.

Oscar H. Johnson, Editor of the Copiah "Signal," Shoots Joseph Jones. of Vicksburg, Near New Orleans.

VICKSBURG, Miss, July 9.—Oscar H. Johnson, editor of the Copiah Signal, and Joseph Jones, member of the board of supervisors, fought a duel near New Orleans. The latter was shot in the arm. Jones challenged Johnson for charges appearing in his paper. Both were arrested and placed under bonds but left town immediately. Friends of both disclaim all knowledge of the whereabouts of

Diabolical Attempt at Poisoning. VINCENNES, Ind., July 9.—A most astoundng and infamous attempt was made to poison whole family near Mitchell, Ind. The particulars, as gleaned from a most reliable source, are as follows: Mrs. Solomon Boss was at the home of her son, Mr. Charles Lewis, two miles northeast of Mitchell. The family consisted of Mrs. Boss, Charles Lewis, William Lewis, and two little boys. One afternoon they were absent from home, and during that time some one entered the house and spread poison—supposed to be strychnine—upon the cold victuals left in the safe in the kitchen. On returning home and sitting down at the supper-table Mrs. Boss ate some of the potatoes, which immediately threw her into convulsions. The others at the table simply tasted the poisoned food owing to the extreme bitterness of it. Mrs. Boss may recover. No definit clew has yet been obtained.

BATAVIA, O., July 9.—A terrible tragedy was enacted by George Ayres, a wealthy farner living half a mile from Salem station, Brown county, on the Cincinnati & Eastern railroad. Mr. Ayres, who is about 60 years old, shot his grandson, Charles Preston, a young man, while in bed this morning, and then set the house on fire, this morning, and then set the house on fire. He then went to the barn, set it on fire, shot himself, and was burned up in the fire. Young Preston was rescued from the fire, but died in a few mirintes. Avres was an Englishman by birth, and is thought to have been insane from the death of his wife about a year ago. Ayres' daughter-in-law kept house for him.

Another grandchild lay beside the one shot, but was not harmed by the insane grandsire.

Justice Coleridge. NEW YORK, July 9.-Lord Chief-Justice Coleridge, who is expected to arrive in this country about September 1, will be the guest of the New York State Bar association. Gov. itler has sent the committee an invitation for Lord Coleridge to attend the opening of the national exposition in Boston, in September, as the guest of Massachusetts. The beuch and bar of Toronto have invited the Lord Chief-Ju tice to a public banquet, and Prof. Goldwin Smith, formerly of Cornell university, but now of Toronto, is one of Lord Coleridge's life-long friends. Attorney-General Brewster has notified the committee of the satisfaction felt by the administration regarding Lord Coleridge's expected visit.

Republican National Committee. CHICAGO, July 9.—The Hon. John A. Martin, of Atchison, Kas., is at the Graud Pacic. Mr. Martin is the secretary of the national Republican committee and member of the committee from Kansas. To a reporter he aid that the committee would convene at Washington, December 12 to appoint the time and select the place for holding the national convention. The chairmanship, made vacant by the death of the Hon. Marshal Jewsli, would also be filled. He did not know what city would be selected, though from letters he had received it was clear that Cincinnati and Saratoga would be applicants.

BALTIMORE'S BIRD.

Oriole Summer Night's Carnival which will be a Series of Striking Novelties. Something of the Unparnlieled Programme which is being

Baltimore evidently takes to mystic pageantry and its attendant splendors with a vim equal to that manifested in Mardi Gras pollities in New Orleans, and an enterprise never before equaled anywhere in such sort of thing. The pre-parations, for this year's festivities, which will embrace the three days from September 11th to 13th inclusive, have already been actively under way for two months or more. In the way of a pageant, it would be difficult to imagine a more extensive or brilliant programme than that laid out. The number of tabeau cars will be double that ever before attempted in any single parade elsewhere, and in dimensions, gorgeous construc-tion and superb finish will certainly bear

off the palm of the world.

The wonderful strides which have of late been made with electric light will be turned to striking advantage, as this character of illumination will be intro-duced in many novel forms. The first night's display, made in honor of the ar-rival of Lord Baltimore, will be as unique as it will be magnificent. It is proposed to arm the military with electric lights in at least ten different colors: to place the powerful electric focus light at many points; to fairly turn night into day, and in many more ways make the night a memorable one.

The feature of this year's Oriole will be the night displays, and it has well been termed a Summer Night's Carnival, As usual, the B. &Q. is foremost in mak ing every possible arrangement for the transportation of its patrons, and in nothing will there be a faculty lacking to insure the utmost comfort and complete satisfaction. The rates by the Baltimore & Ohio will be down, way down, and the limit of time on round trip tickets all the most exacting can command. We believe that there is a large class of patent medicines whose ingredients are skillfully and conscientiously selected and compounded, and that they have been very useful in the domestic treatment of, disease. We must come to this conclusion in precisely the same way that we come to the conclusion that a man is askillful physician—by what they accomplish, and by the testimony of those who have used them. The reputation a patent medicine is sustained by

exactly the same evidence that supports a skillful physician's reputation. * * Many of those medicines came out of the regular practice, and were prepared and originally prescribed by the best physicians. * * Very few of them, we believe are humburgs and frauds in the consciousness or the intent of their makers. * * The people, who are necessarily the judges, both of doctors and of medicines, say that these medicines are not all frauds, and if human testimony is good for anything, that fact is established. — Scribner's Monthely.

IOWA POLITICS.

Judge Nourse, of Des Moines, Says the Republicans Will Carry the State.

CHICAGO, July 9.—Judge Nourse, of Des Moines, is at the Palmer. The judge was one of the principal ad zocates of the Prohibition platform adopted at the late Iowa Republican convention, and was chairman of the can convention, and was chairman of the Polk county delegation. A reporter called upon him and asked him what he thought of the situation. He said: "We will carry Iowa by at least 40,000 majority. All this talk about losing the state is non-sense, and those who say so show sense, and those who say so show hoped that his high position, wealth, their ignorance of Iowa and its people. If and lineage would have closed the mouth you wish to know where the 40,000 majority is to come from I will tell you. We will get fully 10,000 Republican votes for the ticket which were cast against the amendment. I of calumny, but the Liberal leaders were not to be hoodwinked by the glitter of his inherited social position, and after having mean such men as D. B. Henderson, who worked against the amendment, will be solid for the ticket. Then we will get about half of the Greenback vote, in spite of Gen. Weaver and all he can do. At least 5,000 Irish will support our ticket who have heretofore voted the Democratic ticket. There is a big temperanco movement in Iowa among peer as a thorough-paced rufflan and reprothe Catholic Irish. Then quite a Democratic quis of Blandford is the man, who as the bosom friend of the rowdy Lord Aylesford, seduced that nobleman's wife. This was not vote all over the state will come to us because of our platform. I think this will amply compensate for any German defection." "What do you propose to do after you elect

the ticket?" "In 1855 a prohibitory clause was added to all the facts, and was apparently a pleased the constitution. It was carried by a majority of over \$,000. In 1858- the legislature, in obedience to the commands of the Germans, amended that clause with what is known as the wine and beer clause, exempting these beverages from the operation of the law. Now what we want is for the party to undo what it never had any right to do-pass this We expect the next legislature to repeal this act. The temperance element in the party has been waiting for years for this to be done, and it would have been political suicide te have dodged at this time. I have not been taking any active part in politics for years, but I saw that the party was on the eve of dissolution. The people regarded the declaring that the amendment was unconstitutional a trick, and they were not in a mood to be trifled with. I say that if we had not taken a pronounced stand on this question we concludes with the pertinent question: "Will would not have had a corporal's guard of voters left. In regard to Judge Day, he has had two terms on the bench, and he would not have been renominated anyhow. What vote he did get was due to his course in this matter, and to say that he was sacrificed to fanaticism is ridiculous. I know Iowa well, having lived there for thirty years, and I would not be afraid to stake \$1,000,000 on the

JONES, OF FLORIDA.

The Southern Senator the Hero of the Day in Ireland

LONDON, July 9.—Senator Jones, of Florida, is the hero of the day in Ireland. His pro-Irish speeches in the United States had a large circulation throughout England and Iround. The warm reception accorded him in London by the Irish parliamentary party upon his arrival here served but to make his friends in Ireland, where he was born, give him an ovation. When the distinguished Floridan reached Balbriggan, the place of his birth, he found almost the entire popula tion turned out to receive him, and, although the senator has few relatives at present liv ing in his native town, and the principal ob ject of his trip was to visit the family graves in Balrothory churchyard, he found the streets arched with overgreens in his honor, the buildings festooned with ribbons and flowers, and the populace turned out in holiday attire. He was received at the station by a delegation of the townsmen and was presented with an address by the town main here, and many people from distant commissioners. In the evening Senator Jones was banqueted and told that his native was banqueted and told that his hadre townsmen felt that they were in duty bound to do all honor to an Irishman, who, in the great American Republic, by his splendid great American Republic, by his splendid the city and brought in by special train.

Judge Hoadly was greeted with cheers and began his remarks by capable Irishmen were to embody and represent the principles of self-government. On the following day, Sonator Jones went to Dublin on his way back to Liverpool. He was made the recipient at the Irish capital of occupy the offices of this state and nation. another demonstration. Mr. Pamell and Mr. Healy traveled in a special train from Monaghan in order to be present at the Dublin demonstration. Mr. Parnell in the course of a brief address upon the occasion described Senator Jones as a strong link between the Irish and American people, and as a living demonstration of the thorough capacity of the Irish people under favorable circum-stances for self-government.

THEATRICAL CELEBRITIES.

No Nicolinis Need Apply --- Lillian Russell's Success---Boucleauit.

LONDON, July 9.—Mme. Patti has recovered from ber cold and scored a great success in "La Gazza Ladia." The subscribers to the opera house have given Mr. Gyo distinctly to understand that, although glad to hear Mme. Patti, they will not tolerate Nicolini on any terms, Patti or no Patti.

Lillian Russell has made a great success.

She was the guest of the New club, and sang before the prince of Wales and a number of the aristocracy.

CHICAGO, July 9.—Judge Baruum has rendered a decision in the case of Frank Mueller, charged with killing Albert Hardis, and who, iguorantly, pleaded guilty to the charge of wanglanghter, indefinitely succeeding the Grain Crops of Minnesota and Dakota CHICAGO, July 9.—A dispatch from St. Paul, Minn., says that R. M. Hubbard, general agent of the Millers' association, of Minneapolis, has advices from northern Dakota and Minnesota with reference to the generally good! The Reputation of the Man Who Suc. ceeds the Duke of Marlborough

LONDON, July 9 .- The duke of Marlbor

ough's has caused a discussion in all the met-

ropolitan journals of a very sensational and

somewhat unsavory character. His suc-

all this, was only recently thrown overboard

by the Liberals on account of his extremely

bad moral character. In a caucus which was

largely attended, and where the discussions

his doings in private life were thoroughly

shown up and discussed, it was decided by a

large majority that it would be most inju-

dicious to nominate him as a Liberal can-didate for parliament. His friends had

listened to the story of his wrong doings de-

liberately and positively refused to allow him

to be a candidate, and thus give their opponents such a desirable opportunity. So his

candidacy was defeated, and very wisely, if

half that is said about his profligate mode of

life be true. Reynolds' Newspaper in its is-

least weapons in the hands of the people that may some day be used with powerful effect

toward abelishing their whole order. But in

this particular case the pockets of the people

are absolutely touched. They say this large

Reception of the Ohio Democratic

Leader at Hamilton, Ohio-Sketch

Hamilton, Ohio, July 9 .- Senator Pendle-

ton failed to come to time for his reception,

which was to have been at Judge McKinney's

residence, and many who were there were disappointed. A letter came, however, ask-

ing that he be excused on account of illness.

Judge Hondly's reception was at the resi-

dence of the Hon. James E. Campbell, the

competitor of Morey for congress last fall.

It was held after the ratification meeting and

the house was crowded. Headly will re-

parts of the country will stay over to see him. On account of the rain the meeting was held

when introduced, and began his remarks by

After paying a high personal compliment to his opponent, Judge Foraker, he said that the

Republican ticket was nominated to follow

the old beaten paths. He was willing to be

the butt of all personal attacks as to character and belief, but had no quarrel with the

personality of the opposite party, while he would hold high conflict with the principles

of the Republicans. He then proceeded to con-

sider the Republican platform, saying that he

wished to avoid making a keynote speech, as

last year's effort in that direction by Gov. Foster had proved disastrous. Taking first

the declaration of achievements in the Repub-

lican platform, he said that party had a habit

of getting back to the future and pointing with pride to the past. He then read a para-

graph of the platform as it ought to be. He included in these achievements the theft of

the presidency, the whisky ring and the star route frauds, the destruction of the navy and

mercantile marine, and the river and harbof

stenlings. These furnished, he said, reasons why Chase and Greeley, and thousands of good Republicans should have left the party.

box containing 6,000 dynamite cartridges, part of the quantity stolen two years ago in Cork, and the officials breathe easier. James Carey, the informer, has been taken by a detective from Dublin to Lon-

don, to be shipped away without reward or a written pardon. His family were sent in advance. Damietta reports 96 deaths from cholora and Mansurah 48. The people of Brindisl, Italy, would not permit a steamer

from India to land her mails, which had been fumigated. At Mount Pleasant, Iowa, a lad of years climbed on a bod and obtained a revolver hanging in a pouch, with which he

shot his infant sister in the mouth, inflicting

fatal wounds. J. R. Wasson, the defaulting paymaster; took a nap on a blanket on the floor of the depot at Kansas City, with his leg chained to an iron pillar and four officers

watching him. The coal-miners now on a strike at Springfield, Ill., held a meeting in a grove and appointed a committee to discuss some system of arbitration. One speaker charged that the miners had been robbed of nearly half their earnings by false weights.

At the morning service at Ascension Episcopal church, Chicago, Rev. Mr. Ritchie startled the congregation by announcing that he would say a requiem mass for the soul of a young sailon, named Daniel Fountain, a member of the parish. After part of the assemblage had left the church, the rector received a note from Mrs. Fountain asking a postponement of the mass, as the body of her husband had been recovered from the lake.

CHOLERA IN EGYPT.

Continued Increase of the Epidemic --- Confined to Four Towns So Far

--- Cairo Threatened. NEW YORK, July 9.—A dispatch from London says: The troubles of the ministry do not decrease as the session progresses. There is great apprehension as to the spread of the cholere. All the reports come through official sources, and are believed to be much underrated as to the returns of the number of deaths. The dispose is believed to have broken out among the troops in Cairo and Alexandria. At the cabinet council it was seriously debated whether or not to recall the whole British army from Egypt and send them to Malta or Cyprus. The matter was referred to Lord Wolseloy, and on his report it was decided to retain them in Egypt for the present. So far the disease seems chiefly confined to four towns on the eastern branch of the Nile. In Damietta about 1,000 have perished, or about one in every thirty of the inhabitants. At Sherbin, a small village of mud buts thirthy miles up the Nile, there have been nine cases whithin forty-eight tours. In Mansurah, twenty miles further up, the death-rate has risen rapidly from six to sixty a day. The town contains about sixteen thousand inhabitants, and is a local centre of trudo. From this point it has spread to Menzaleh, on the lake of that name. The next outbreak is at Samanoud, a small village on the Nile about sixteen miles further up. It is noticed that the disease, as in former instances, is steadily following the course of a great river. It is now only seventy miles from Cairo, and should it reach that city a terrible mortalit may be anticipated in the Arab and Jew quarters. The papers here point out that the disease was due in 1877, having appeared regularly every twelve years since 1781, spreading always to the west and taking about two years to exhaust itself. The disease is undoubtedly Asiatic cholera of the most virulent type: Most of the cases occur among the poorer classes, and a large manifest of the cases o jority are fatal. All the European governments have established strict quarantine reg-

ulations as to vessels coming from Egypt. Denis Kearney. CHICAGO, July 9.—Denis Kearney the sand-lot orator, of San Francisco, addressed an audience of 500 people on Market street, this city. He first turned his attention to the delegates to the Anti-Monopoly convention which recently met here, and denounced them in unmeasured terms, calling them in his own vigorous language "free-trade, free-rum, own vigorous language "free-trade, free-rum, free-love, blackmailing, batched-faced cranks." He declared that the living issue in this country was the wage question and called upon the workingmen to do something for the president. The sleep of the president is the president of themselves. He closed his speech with a de-fense of the Pacific railways, and asserted that there was only one Anti-Monopoly party in California, and he was president thereof. Stephen Maybell then addressed the erowd in pretty much the same vein, also emphasizng the idea that the labor question was the live issue. He said he was in favor of government proprietorship of the railways, but as that was not yet consummated, it was the duty of laboring men to see that all laws regulating them were framed in the interest of labor. Resolutions of the same tenor were passed, and the meeting adjourned.

Daring Robbery. Sr. Louis, July 9.—The Post-Dispatch special from Bellevillo, III., says: "Two men entered the Belleville savings bank, one of whom engaged the attention of the cashier, while the other got behind the counter and while the other got beautiful to connect and made a grab for money, when he was seen by a clerk. A Woman's Experience. MRS. WILLIAM DOWNES, of Uxbridge, Mass. writes on March 15, 1883, as follows:

"During the past three years I have been great sufferer from a complication of diseases which baffled the skill of the most experienced loctors, as I could not obtain permanent relief by their treatment and prescriptions; and I have also tried many so-called cures in the medicine line, but could get no relief. The spains, aches, and weakness increased so rapidly and constant impatience with him. Here, then, we find the true secret of good conversational ability to lie in the power of the ly that I was so reduced in strength as to be unable to leave the bed, and the doctors informed me that there was no hope of a recovery. In this exhausted and discouraged condition a dear friend persuaded me to use Hunt's Remedy, and after taking it only three days I commenced to get better, and to my great joy and delight I have continued to improve constantly by its use, until now, after having taken the remedy only a few weeks. I am able to be about my house again, and am now doing my house work My lame back is cured, the severe pains have disappeared, and I am now in better health that for many years, and beg this privilege of gladly recommending Hunt's Remedy to all 'who are afflicted with any disease of the kidneys or liver; and I also highly recommend it for the attacks of sick headache. DR. FISHBLAT

ing medical colleges in the United States,editor of the New York Medical and Surgical Journal, consulting physician and operative surgion in the New York Hospital for Chronic Diseases, Physician in Chief of the Medical and Surgical Institute of Cedar Rapids.

Immense Practice

WILL MAKE HIS NEXT VISIT AT THE

Wednesday, August 29th.

And Remain Two Days

Dr. Fishblatt

Has discovered the greatest cure in the world for weakness of the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, paleness of sight or griddiness, diseases of the throut, nose or skin, affections of the liver, langs stomach, or bowels,—those terrible disorders arising from solitary practice more fatal to their victims than the songs of the sirens to the Mariners of Ulysses, blighting their most radiant hopes or at ticipations, readering marriage impossible.

Who have become victims of solitary vice, that creadful and destructive habit hich annually sweeps to an untimely grave thousands of young men of exalted ulent and brilliant intellect, who might if otherwise, entrance listening senates with the thunder of their cloquence, or wake to ecstacy the living lyre, may call with full confidence.

Marriage.

Married persons, or young men contemplating marriage, aware of physical weakness (loss of procreation power, impotency,) nervous debility or any other disqualifications speedily relieved. He who places himself under the care of Dr. Fishbiatt may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physician.

Organic

Immediately cured and full vigor restored. This affliction—which renders life a burden and marriage impossible—is the penalty paid by the victim of improper indulgence. Young persons are apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands this subject will deny that procreation is lost sooner by those falling into improper habits than by the prudent? Besides being deprived of the pleasures of healthy offspring, the most serious and destructive symptoms of both mind and body arise. The system becomes deranged, the physical and mental functions weakened, loss of procreative power, nervous irritability, dyposia, palpitation of the heart, indigestion, constitutional debility, wasting of the frame, cough, consumption and death.

A Cure Warranted.

Persons ruined in health by funlearned pre-ceders who keep them triffing month after nonth, taking poisonous and injurious com-rounds, should apply immediately.

Dr. Fishblatt

Dr. F. addresses all those who have injured Dr. F. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruins both mind and body, unlitting them for business, study, society, marriage. These are some of the sad, melancholy effects produced by the early habits of youth, namely: Weakness in the back and limbs, pain in the head, dimness of sight, loss of musical power, palpitation of the heart, dyspepsia, nervous irritability, derangement of the digestive functions, debility consumption, etc.

A Special Study for Years.

Dr. F. B. BREWER, Has made Chronic Diseases of the

Throaf, Lungs, Heart, Stomach, Liver, Kidneys, Nerves and Blood.

A special treatment for years. He is not a boastful, ignorant pretender, but an educated physician, seeking to do good, by devoting his talent and energies to the treatment of a class of malacies that have been with him a long and patient study. To be able to treat successfully chronic diseases it requires that a physician should be a sound, thorough scholar in the art of science and medicine generally. He should give his entire time to their study, be thorough in his investigations and nave a long and varied experience. Dr. brewer claims to work no wonders or to do any more than any well educated physician can do, who devotes his whole time to the study and treatment of chronic discases exclusively, and has had his many years of experience. For years Dr. Brewer has visited the the places he now visits, and has obtained his reputation by being honest in his dealings, candid in opinions and reasonable in his charges. Those who are afflicted are invited to call, investigate and decide for themselves. It will cost nothing to do so. Address all lotters to E. B. BREWER, M. D. Lock Box 350, Chicago, Ill Dr. F. B. Continued:

"That's what I did with Parker's Tonic; I tried the experiment. It more than met my expectations, and I am very glad to testify to its excellence. It goes at once to the root of all digestive and nervous derangements so common among men of my profession. For women and chronic invalids the Tonic is a perfect invigorant and is designed to supplant all other remedies for this purpose. A single dose produces the gentle perspiration and sense of life, which cradicates disease. It seems to rouse every organ into activity. I admire it, too, for its power to antagonize the hold of the liquor habit over inobriates."

This preparation which has been known as Parkel's Ginger Tonic, will hereafter be called Parker's Tonic. As unprincipled dealers are constantly deceiving their customers with inferior studies under the name of ginger, and as ginger is really an unimportant flavoring ingredient, we drop the misleading word.

There will be no change, however, in the preparation itself, and all bottles in the hands of dealers wrapped under the name of Parker's Ginger Tonic contain the genuine medicine if the fac-simile signature of Hissox & Go, is at the bottom of the outside wrapper.

Mr. Wilmarth was born in Lyndon, Vermont, October 11th, 1824, and was at his death, nearly fifty-nine. All the children, four sons and one married daughter with her husband, were gathered home to weep with their mother as they lovingly laid their father in his last resting place."

-Mr. Moseley has made arrangements to secure an excursion train from Janesgain ever shown in this city, they beat ville to Chicago on Wednesday, July 18th -next week. The train will leave here at 7 o'clock in the morning, and the fare for the round trip will be only \$2.75the tickets good for three days. This will enable the excursionists to take in all the attractions of the city, of which fortunately, there will be many during that week. There will be the great races, the base ball games between the Bostons and Chicagos, and Thomas' concert at the exposition building. The sale of tickets will begin on Wednesday of this week, at Lawrence & Co.'s bookstore. A more favorable opportunity to visit Chicago at cheap rates was never offered to the people of Janesville.

THOMAS CAPELLE. On Saturday evening, at half-past ten o'clock, death ended the earthly career of Mr. Thomas Capelle, at his home on West Bluff street, in the first ward, in the fifty-sixth year of his age. The deceased was one of the oldest conductors on the Chicago & Northwestern railroad, he had but recently been a resident of Janesville, coming here from Oshkosh, and taking the run from this city to Afton. His ailment was a disease of the heart, and some six months ago, he was compelled to give up his train on account of illness, but soon recovered sufficiently to resume his labors, which was only for a few days, when he

was again compelled to give up his train, since which time he has been confined to his home. The deceased was popular among his many acquaintances, and his genial and social manners made him friends with all whom he met, all of whom will sadly mourn his death. He leaves a wife and six children, Mrs. L. B. Rich of Oshkosh, Mr. E. D. Capelle, of Chicago, and four younger, two boys and two girls,-all of whom were at home when the sad messenger came.

The funeral will take place at the house at two o'clock to-morrow afternoon, Rev. O. A. Curtis, of Court street M. E. church, officiating. HAVENS.

Death entered the home of Mr. and Mrs. Moore Havens, on Pleasant street, at an early hour this morning, and claimed their little infant son as its victim. The little one was attacked on Saturday night with paralysis, and death ended its sufferings this morning. The parents will have the sympathy of a large acquaintance in their sore affliction. Funeral notice found elsewhere in this paper.

After a Horse Thief. There was considerable excitement in the city yesterday morning upon hearing that during the previous night a span of fine young Norman horses had been stolen from Mr. Sumner Parker, of LaPrairie, and immediately a force was organized for the capture of the property and thief. The party started from this city at nine o'clock, and consisted of Sheriff Harper, Marshal Hogan, R. J. Rooney, George Charlton, Joe Hennessey, E. C. Lloyd, James Brown, and George Parker, who went south. They struck the trail of the thief at Beloit at ten o'clock, where he crossed the river, and was evidently making for Poplar Grove, Illinois. A number of the neighbors of Mr. Parker, also turned out, and the party were reinforced in Beloit by Deputy Sheriff Allen, and others. The stolen team being a heavy one, weighing about 3,000 pounds, the pursuers auticipated an easy time in overhauling them, but at Beloit they found they were two hours behind, and changed horses. Mr. Hennessey left the pursuing party at Poplar Grove, at 11 o'clock last night, and returned home. He reports that the party are sure they have the thief surrounded in the woods, and that he heard some firing as he left, indicating that the thief

had been captured. The horses were a span of iron-greys, about four years old, weigh about 3,000 pounds, and were valued at eight hundred dollars. The thief took the thills from a heavy buggy, and replaced them with the pole, filled three bags with oats, and made his escape with the complete outfit-horses, harness, buggy and feed. LATER.

Mr. R. J. Rooney arrived on the one o'clock train having left the pursuing party at Union, McHenry county, Illinois, at 9:30 o'clock this morning, after being out all night. They claim to be on the track; that one of the stolen horses was nearly exhausted, and had broken some of the spokes out of the front wheel. There appears to be two men with the stolen horses, who are making their way to Chicago. At noon, the pursuing party started for the Fox river at Duudee and at Elgin, as it was thought

the thieves would attempt to at one river \mathbf{t} he cross of these points. Mr. Rooney reports that four horses were stolen in the town of Lake on Saturday night, and that the people were all out after the thieves. The Janesville party were provided with fresh horses at Union, and were pushing on to head off the horses when Mr. Roo-

nev left for home. Mr. Charlton, who returned home this morning with Mr. Hennessey, says that the firing heard last right, was not connected with their party, as he saw them all before he started home, and none of them knew what caused it.

The Exhibition Saturday Night. The corn exchange square and the neighboring streets and buildings were packed with people on Saturday evening, to listen to the open air concert by the Bower City band, and witness the balloon ascensions and fire works announced to his judgment can always be relied on." take place at that time. The splendid music of the band held the great crowd for a couple of hours, and gave general satisfaction to all; but the crowd were a little dissatisfied with the fire works, they expected a little too much. Some of the balloons which were sent up, made a handsome appearance, rose to a good height, while others did not go above the buildings, some taking fire as soon as they were loosened from their auchorage. The fire works were rather thinin fact they consisted of a few Roman candles, a mine or two, and the burning of a few colored lights. But the music was worth the price of the exhibition and those who did not expect more than

they paid for went home satisfied. The open air concert by the Bower City band will be repeated on Wednes-

day evening, at the same place. All summer goods at cost. ARCHIE REID.

The Trotting Circuit.

The turfmen connected with the Wiscousin circuit are not meeting with very flattering success this season. It will be remembered that the circuit opened with the races in this city on June 8th, and notwithstanding the unfavorable weather, the receipts more than paid the expenses of the meeting; some five hundred dollars being expended in permanent improvements on the grounds. That the readers of the Gazette may be posted in the affairs of the circuit, we publish the following from the Oshkosh Northwestern,

of Saturday :--"It turns out that three horses have been reported for suspension to the Netional trotting association for non-payment of entrance money in the races recently held in this city. The national association requires reports to be sent by each association within a week from any meeting on a national association track. The time for the reports expired yesterday and they were sent on, suspending the following horses from all national association tracks: Laura, owned by George Gerry, of Appleton; William Kimpall, owned by Frank Smith, of Rockford, and Blanche H., owned by C. H. Spafford, of Janesville. The amount of entrance money due from each horse is \$30. Two or three others had not paid up to yesterday, but at the last moment their owners telegraphed here asking Secretary Austin to draw on them for the amounts. As to the finances of the recent races

the figures have not yet been announced. E. W. Viall, the treasurer, says he hasn't footed up to find out exactly how much shortage there is, but he has advanced \$300 out of his own pocket and says he wants those who subscribed to the project to walk up to the captain's office (that is, Viall's office) and fork over the amount of their subscriptions. It appears that the committee made a list of one hundred business men from whom they expected to draw five dollars each in case of a shortage, but had time to see only sixty of them and get their personal consent to be taxed \$5 each to make up any deficiencies. These are now asked to walk up and pay their subscriptions."

Promisition in Olifo.

COLUMBUS, Ohio, July 7.—A call is just issued signed by fifty prominent citizens from all parts of the state calling a convention, styled the Second-Amendment convention, for the 24th day of July in this city. The call states the purpose of the convention to be to organize a state campaign in a nonpartisan manner, and for taking such other measures as are necessary for carrying the proposed constitutional prohibition amendments. The call is signed by eminent men of all parties, and will cause no little interest in the temperance cause of the state.
